

## **Instructions – SERE 100.2 Level A Training Requirements**

- Purpose: Personnel Recovery prevention and preparation are the efforts that enable travelers to be ready for a situation in which they may become isolated, captured, missing, or detained; whether through accident (e.g., vehicle breaks down en route to a location), political turmoil (e.g., riot), lawful foreign detention or criminal/terrorist action (e.g., kidnapping). Prevention efforts should focus on the traveler's ability to survive unassisted for no less than 96 hours and conduct the necessary steps to energize the Personnel Recovery architecture or network.
- Consult COCOM, Service and Unit PR POCs for specific OCONUS PR travel requirements that may be more detailed and restrictive.
